

2024

GLF 2024: GLOBAL LONGEVITY FEDERATION

March 25-26, 2024(Online)

Program Follows EST time
(US and Canada) [GMT-4]

Day 1 Monday | March 25, 2024

09:00AM-09:30AM Opening Ceremony & Introduction

Oral Presentations

09:30AM-10:00AM Causal Effect of Gut Microbiota on DNA Methylation Phenotypic Age Acceleration: A Two-Sample Mendelian Randomization Study
Yedong Huang, Fujian Medical University, China

10:00AM-10:30AM Aging clocks, entropy, maximum human lifespan, and the challenge of age-reversal
Peter Fedichev, Gero PTE LTD, Singapore

10:30AM-11:00AM Stem cells technology : The Dawn of Hope for Incurable Diseases
Michael Lim Ming Soon, Prime Genesis Pte. Ltd., Singapore

11:00AM-11:30AM Centenarian Expedition - What can we learn from Blue Zones ?
Silvia Triboni, Silvia Triboni Produ, Portugal

Keynote Presentations

11:30AM-12:15PM Human regenerator : the health symphony
Lucia Hue-Fontaine, LHF CARE/ human regenerator, France

12:15PM-01:00PM Glycans as biomarkers and functional effectors of ageing and disease
Lucija Sironic, GlycanAge, USA

Oral Presentations

01:00PM-01:30PM Learning All We Can From Supercentenarians
Ben Meyers, LongeviQuest, USA

01:30PM-02:00PM Rapid Reversal of Aging and Diseases of Aging
Louis Dischler, Independent Scholar, USA

02:00PM-02:30PM "How Younging Are You?" - Tracking and Evaluating the Effectiveness of Anti-Aging Interventions
Chris Wikman, Biometrics for Healthy Aging, USA

02:30PM-03:00PM Multi-Step Rejuvenation Protocol
Jason C. Mercurio, Ageless Partners, USA

03:00PM-03:30PM LongeTalks and intergenerational relationships: building a functional business model
Jessyka Bram, LongeTalks, Brazil

Panel Discussions

Closing for the Day

Day 2 Tuesday | March 26, 2024

09:00AM-09:30AM Conference Joining

Oral Presentations

09:30AM-10:00AM **Senile Health Optimisation: A Global Challenge**
Bhaweshwar Singh , L.N.Mithila University, India

10:00AM-10:30AM **Diabetes and Ageing**
Georgios Mitrou, AIMIS HealthCare Group, Greece

10:30AM-11:00AM **The Role of Peptides in Anti-Aging**
Jesse Morse, The Osteoparthic Center, USA

Keynote Presentations

11:00AM-11:45AM **Studying ageing as a two-phase process**
Michael Rera, Institut Jacques Monod (IJM) Paris, France

11:45AM-12:30PM **Rejuvenation Biotechnology: progressing from individual repair therapies to combinations**
Aubrey de Grey, Chief Science Officer of SENS Research Foundation, USA

Oral Presentations

12:30PM-01:00PM **The Ethics of Radical Life Extension and How to Change Attitudes**
Ingemar Patrick Linden, NYU Tandon School of Engineering, USA

01:00PM-01:30PM **Reversing Biologic Age With Rejuvant**
Tom Weldon, Ponce De Leon Health, USA

01:30PM-02:00PM **Disrupting Medical Care with Longevity Medicine**
Ryan A. McNally, Elevate Health, USA

Poster Presentation

02:00PM-02:30PM **TELOMIR-1 Induces Telomere Extensions in Primary Human Cell Strains**
Danielle Baker, Telomir Pharmaceuticals, USA

Panel Discussions

Closing Ceremony
